

Derren Pamintuan

Web Developer

📍 Carson, CA 📞 (310) 283-9794 ✉ pamintuan2000@gmail.com 🌐 GitHub 🌐 LinkedIn

🔧 TECHNICAL SKILLS

Strong: JavaScript (ES5/ES6), HTML5, CSS3, React.js, PostgreSQL

Experienced: Node.js, Flexbox, jQuery, AJAX, JSON, OOP, REST API, HTTPie, Express.js,

Tools: Git, GitHub, Visual Studio Code, Chrome DevTools, Slack, Figma, Docker, Bootstrap, DB Designer, AWS

🔗 APPLICATIONS DEVELOPED

Fine Dine, *GitHub* ✨

A full stack web application for food enthusiasts who want to find new restaurants. Live ✨

- Utilized **PostgreSQL** to successfully register users information to a database and retrieve it through login.
- Acquired data from the Yelp **REST API** by sending a fetch request to allow the client to obtain information on input.
- Implemented **React** to build components that functions as a search form to displaying a list from the achieved data.
- Deployed a web application using **AWS** to successfully create a domain that users can navigate and experiment with.

Holiday Travels, *Github* ✨

A front-end application for travel enthusiasts who want to acquire data on upcoming holidays around the world. Live ✨

- Applied **HTML** and **CSS** to design an aesthetic web page that adjusts accordingly to a users display.
- Executed **JSON** to stringify a users input entry and store it to the users local storage for future use.
- Utilized **JavaScript** to allow users to create entries by adding an event listener to a submit button.
- Achieved data through an **API** by implementing **AJAX** to create requests to the server that returns information.

📁 WORK EXPERIENCE

Apprentice Development Technician, *Senra Systems*

Sep 2024 – Present

- Interpret schematics and MES instructions to build and test aerospace harness assemblies; operate wire processing equipment and troubleshoot electrical and mechanical issues.
- Collaborate with engineers and inspectors to develop processes, refine work instructions, and optimize workflow in compliance with IPC 620 standards.
- Inspect harnesses, issue NCRs, perform rework, and apply 5S principles to maintain quality, safety, and productivity.

Warehouse Coordinator, *Mercedes Vehicle Preparation Center*

Nov 2019 – May 2021

- Directed team members to relocate vehicles according to preparation to aid in delegation of the work load.
- Assisted carriers in transporting vehicles to another facility by escorting them to the vehicle location.
- Inspected vehicles in preparation before being transferred to another department or destination.

Shift Leader, *Gen Korean BBQ*

May 2018 – Nov 2019

- Contributed as an exemplary team member by demonstrating an effective work flow.
- Performed multitasking by memorizing orders and delivering each order by highest priority.
- Improved high-productivity in a fast-paced work environment by communicating with team members.

🎓 EDUCATION

Full-Immersion Web Development Program, *LearningFuze* ✨

- Implemented 60+ hours a week of accelerated programming (over 700+ hours) in a simulated work environment.

Software Engineering Prep Courses, *Hack Reactor* ✨

- Dedicated 30+ hours a week of JavaScript programming (over 150+ hours) for basic understanding and fundamentals.
